Volume 89 1978

Table of Contents

No. 1 1–320 issued on August 15, 1978
No. 2 321–628 issued on September 1, 1978

1 International Union of Biochemistry
Biochemical Nomenclature and Related Documents, 1978

3 Changes of Mitochondrial DNA Polymerase-γ Activity in Synchronized Mouse Cell Cultures
K. Radsak and E. Schütz

11 Amino-Acid Sequence of Toxin I from *Anemonia sulcata*
G. Wunderer and M. Eulitz

19 Sensitivity of a Near-Equilibrium Reaction in a Metabolic Pathway to Changes in Substrate Concentration
B. Crabtree and E. A. Newsholme

23 Immunochemical and Enzymatic Properties of Bisphosphoglyceromutase/phosphatase and Phosphoglyceromutase from Human Erythrocytes
K. Ikura, H. Narita, R. Sasaki, and H. Chiba

33 Inhibition of Rat-Liver Acetyl-Coenzyme-A Carboxylase by Palmitoyl-Coenzyme A. Formation of Equimolar Enzyme-Inhibitor Complex
H. Ogiwara, T. Tanabe, J. Nikawa, and S. Numa

43 Retention of the Oxygen Atoms at Carbon-2 and Carbon-3 during the Carboxylation of Ribulose 1,5-bisphosphate
G. H. Lorimer

51 The Glutamine Synthetase from *Azotobacter vinelandii:* Purification, Characterization, Regulation and Localization
J. A. Kleinschmidt and D. Kleiner

61 Oxygen Activation in Isolated Chloroplasts. Mechanism of Ferredoxin-Dependent Ethylene Formation from Methionine
E. F. Elstner, M. Saran, W. Bors, and E. Lengfelder

67 Purification of Vitellogenin mRNA and Serum Albumin mRNA from Avian Liver by Preparative Gel Electrophoresis
B. Wieringa, J. Mulder, A. van der Ende, A. Bruggeman, G. AB, and M. Gruber

81 The Conformation of Membrane-Bound and Detergent-Solubilised Bovine Rhodopsin. A Comparative Hydrogen-Isotope Exchange Study
H. B. Osborne and E. Nabedryk-Viala

89 Collagenase Sensitivity and Aggregation Properties of *Electrophorus* Acetylcholinesterase
S. Bon and J. Massoulié

95 Purification of Two Dexamethasone-Binding Proteins from Rat-Liver Cytosol
M. V. Govindan and C. E. Sekeris

105 Actins from Mammals, Bird, Fish and Slime Mold Characterized by Isoelectric Focusing in Polyacrylamide Gels
K. Zechel and K. Weber

113 Glutathione Efflux from Perfused Rat Liver after Phenobarbital Treatment, during Drug Oxidations, and in Selenium Deficiency
H. Sies, G. M. Bartoli, R. F. Burk, and C. Waydhas

119 The Proton Pump of Cytochrome c Oxidase and Its Stoichiometry
E. Sigel and E. Carafoli

125 Degradation of Guanosine 3′-diphosphate 5′-diphosphate *in vitro* by the *spo*T Gene Product of *Escherichia coli*
E.-A. Heinemeyer, M. Geis, and D. Richter

133 The Mechanism of Action of Cytochrome *P*-450. Occurrence of the 'NIH Shift' during Hydroperoxide-Dependent Aromatic Hydroxylations
A. D. Rahimtula, P. J. O'Brien, H. E. Seifried, and D. M. Jerina

143 The Disposition of Formaldehyde and Formate Arising from Drug N-Demethylations Dependent on Cytochrome *P*-450 in Hepatocytes and in Perfused Rat Liver
C. Waydhas, K. Weigl, and H. Sies

151 Isolation and Characterization of Secretory Actin · DNAase I Complex from Rat Pancreatic Juice
G. Rohr and H. G. Mannherz

159 Human Erythrocyte Membrane Acetylcholinesterase. Incorporation into the Lipid Bilayer Structure of Liposomes
E. R. Hall and U. Brodbeck

169 Potassium Uniport and ATP Synthesis in *Halobacterium halobium*
G. Wagner, R. Hartmann, and D. Oesterhelt

181 Purification and Characterisation of Prostatic Binding Protein and Its Subunits
W. Heyns, B. Peeters, J. Mous, W. Rombauts, and P. De Moor

187 Initiator Methionine Residues at the NH_2-Termini of the Two Precursors of MOPC-41 Immunoglobulin Light Chain. Studies with the Initiator and Internal $tRNA^{Met}$ Species
R. Zemell, Y. Burstein, and I. Schechter

195 Structure-Activity Relationships for the Lipid-Mobilising Action of Locust Adipokinetic Hormone. Synthesis and Activity of a Series of Hormone Analogues
J. V. Stone, W. Mordue, C. E. Broomfield, and P. M. Hardy

203 Anabolic Ornithine Carbamoyltransferase of *Escherichia coli* and Catabolic Ornithine Carbamoyltransferase of *Pseudomonas putida*. Steady-State Kinetic Analysis
B. Wargnies, C. Legrain, and V. Stalon

213 Initiation Factor IF-3 and the Binary Complex between Initiation Factor IF-2 and Formylmethionyl-tRNA Are Mutually Exclusive on the 30-S Ribosomal Subunit
G. A. J. M. van der Hofstad, A. Buitenhek, L. Bosch, and H. O. Voorma

221 Binding of Labeled Initiation Factor IF-1 to Ribosomal Particles and the Relationship to the Mode of IF-1 Action in Ribosome Dissociation
G. A. J. M. van der Hofstad, A. Buitenhek, P. J. van den Elsen, H. O. Voorma, and L. Bosch

229 Studies on the Biosynthesis of Bacterio-opsin. Demonstration of the Existence of Protein Species Structurally Related to Bacterio-opsin
M. Sumper and G. Herrmann

237 Ethanol Oxidation by Isolated Rat-Liver Cells. Stimulatory Effects of Fructose
M. N. Berry and E. Kun

243 Transient-Phase Studies on the Arginine Kinase Reaction
T. E. Barman, F. Travers, R. Bertrand, and G. Roseau

251 Two Structurally Closely Related Polypeptides Encoded by 14-S mRNA Isolated from Rat Lens
L. H. Cohen, L. W. Westerhuis, D. P. Smits, and H. Bloemendal

259 Rat α-Crystallin A Chain with an Insertion of 22 Residues
L. H. Cohen, L. W. Westerhuis, W. W. de Jong, and H. Bloemendal

267 A Long-Range and Two Short-Range Periodicities Are Superimposed in the 1.706-g/cm³ Satellite DNA from Calf Thymus
R. E. Streeck and H. G. Zachau

281 Spectral Properties of Chlorophyll *a* Monolayers in the Presence of an Exogenous Electron Donor and Acceptor
R. E. Hirsch and S. S. Brody

287 Studies on Lipid A from *Yersinia pseudotuberculosis* Lipopolysaccharide. Isolation and General Characterization
I. N. Krasikova, V. I. Gorbach, T. F. Solov'eva, and Y. S. Ovodov

291 Transglycosylic Reactions of Deoxysugars. Biosynthesis of Deoxy Analogues of Starch
J. Zemek, Š. Kučár, and J. Zámocký

297 The Mechanism of Codon-Anticodon Interaction in Ribosomes. Quantitative Study of Codon-Dependent Binding of tRNA to the 30-S Ribosomal Subunits of *Escherichia coli*
S. V. Kirillov, V. I. Makhno, and Y. P. Semenkov

305 The Mechanism of Codon-Anticodon Interaction in Ribosomes. Heterogeneity of tRNA Complexes with 70-S Ribosomes of *Escherichia coli*
S. V. Kirillov, V. I. Makhno, V. B. Odinzov, and Y. P. Semenkov

315 Mitochondrial Transport Processes and Oxidation of NADH by Hypotonically-Treated Boar Spermatozoa
J. Calvin and P. K. Tubbs

321 Subcellular Localization of Two Long-Chain Acyl-Coenzyme-A Synthetases in *Candida lipolytica*
M. Mishina, T. Kamiryo, S. Tashiro, T. Hagihara, A. Tanaka, S. Fukui, M. Osumi, and S. Numa

329 Adaptive Responses of Enzymes of Carbohydrate and Lipid Metabolism to Dietary Alteration in Genetically Obese Zucker Rats (*fa/fa*)
S. O. Spydevold, A. L. Greenbaum, N. Z. Baquer, and P. McLean

341 Interaction between Membrane Functions and Protein Synthesis in Reticulocytes. Isolation of RNase M, a Membrane Component Inhibiting Protein Synthesis through Specific Endonucleolytic Activity
D. Wreschner, D. Melloul, and M. Herzberg

353 RNA-Protein Neighbourhoods of the Ribosome Obtained by Crosslinking
H. G. Bäumert, S.-E. Sköld, and C. G. Kurland

361 Characteristics of the Active Transport of Ca^{2+} by Submitochondrial Vesicles
V. Niggli, M. Mattenberger, and P. Gazzotti

367 A ^1H Nuclear-Magnetic-Resonance Study of the Solution Conformation of the Isoinhibitor K from *Helix pomatia*
G. Wagner, K. Wüthrich, and H. Tschesche

379 The Amino-Acid Sequence of S-100 Protein (PAP I-b Protein) and Its Relation to the Calcium-Binding Proteins
T. Isobe and T. Okuyama

389 The Quaternary Structure of the Sheaths of Defective Phages Similar to PBS X
A. F. M. Cremers, H. Y. Steensma, and J. E. Mellema

397 Fluorescence Quenching and Energy Transfer in Complexes between Horse-Liver Alcohol Dehydrogenase and Coenzymes
M. A. Abdallah, J.-F. Biellmann, P. Wiget, R. Joppich-Kuhn, and P. L. Luisi

407 Ribosomal Subunits from *Tetrahymena pyriformis*. Isolation and Properties of Active 40-S and 60-S Subunits
C. Rodrigues-Pousada and D. H. Hayes

417 Pyrimidine Metabolism in Microplasmodia of *Physarum polycephalum*
K. Fink and P. Nygaard

425 Reaction of $tRNA^{Phe}$ from Yeast with 1-Fluoro-2,4-dinitrobenzene. Attachment Sites of the Potential Antigenic-Determining 2,4-Dinitrophenyl Residues
K. Watanabe and F. Cramer

433 Conformation of Erabutoxins a and b in Aqueous Solution as Studied by Nuclear Magnetic Resonance and Circular Dichroism
F. Inagaki, T. Miyazawa, H. Hori, and N. Tamiya

443 The Complete Amino-Acid Sequence of Histone $H2B_{(3)}$ from Sperm of the Sea Urchin *Parechinus angulosus*
M. Strickland, W. N. Strickland, W. F. Brandt, C. von Holt, B. Wittmann-Liebold, and A. Lehmann

453 Ecdysone Oxidase: Reaction and Specificity
J. Koolman and P. Karlson

461 D-Glucose Transport in *Trypanosoma brucei*. D-Glucose Transport is the Rate-Limiting Step of Its Metabolism
J.Gruenberg, P. R. Sharma, and J. Deshusses

471 Structure of an (A-Blood-Group)-Active Glycolipid Isolated from Human Erythrocytes
A. Gardas

475 High-Resolution Proton-Magnetic-Resonance Studies of Chromatin Core Particles
P. D. Cary, T. Moss, and E. M. Bradbury

483 Involvement of the *Escherichia coli* Phospho*enol*pyruvate-Dependent Phosphotransferase System in Regulation of Transcription of Catabolic Genes
T. N. Bolshakova, T. R. Gabrielyan, G. I. Bourd, and V. N. Gershanovitch

491 Carboxylic and Polyethyleneimine-Bound FAD Derivatives. Synthesis, Coenzymic Properties, Conformational and Enzyme-Coenzyme Interaction Studies
P. Zappelli, R. Pappa, A. Rossodivita, and L. Re

501 The 5-S RNA · Protein Complex from an Extreme Halophile, *Halobacterium cutirubrum*. Purification and Characterization
N. Smith, A. T. Matheson, M. Yaguchi, G. E. Willick, and R. N. Nazar

511 Slow Association-Dissociation Equilibrium of NADP-Linked Isocitrate Dehydrogenase from Beef Liver in Relation to Catalytic Activity
M.-F. Carlier and D. Pantaloni

517 Analysis of Phosphorylation of Protein Synthesis Initiation Factor eIF-2 by Two-Dimensional Gel Electrophoresis
P. J. Farrell, T. Hunt, and R. J. Jackson

523 Biochemical Characterization of the Restriction-Modification System of *Bacillus sphaericus*
C. Koncz, A. Kiss, and P. Venetianer

531 A Study of the Thermal Unfolding of *Escherichia coli* Phenylalanine Transfer RNA by Chemical Modification at Elevated Temperatures
J. P. Goddard and M. Lowdon

543 Nuclear-Magnetic-Resonance Study of Aggregations and Conformations of Melanostatin and Related Peptides
T. Higashijima, M. Tasumi, T. Miyazawa, and M. Miyoshi

557 Modification of Elongation-Factor-Tu · Guanine-Nucleotide Interaction by Kirromycin. A Comparison with the Effect of Aminoacyl-tRNA and Elongation Factor Ts
O. Fasano, W. Bruns, J.-B. Crechet, G. Sander, and A. Parmeggiani

567 The Structure of Chromatin Replicated *in vitro*
E.-J. Schlaeger and K.-H. Klempnauer

575 Histidine in the Nucleotide-Binding Site of NADP-Linked Isocitrate Dehydrogenase from Pig Heart
R. S. Ehrlich and R. F. Colman

589 Molecular Morphology of Ribosomes. Influence of Chain-Initiation Factor IF-3 and Ribosomal Protein S1 on Ribosome Conformation
C. J. Michalski, B. H. Sells, R. M. Chowdhury, and A. J. Wahba

595 Immunological Studies on Cytochrome c Oxidase: Arrangements of Protein Subunits in the Solubilized and Membrane-Bound Enzyme
S. H. P. Chan and R. P. Tracy

607 Purification and Characterization of an Endonuclease from *Micrococcus luteus* that Acts on Depurinated and Carcinogen-Modified DNA
R. Hecht and H. W. Thielmann

619 Mannosylation of Endogenous Proteins of Rough and Smooth Endoplasmic Reticulum and of Golgi Membranes
O. S. Nilsson, M. E. De Tomás, E. Peterson, A. Bergman, G. Dallner, and F. W. Hemming
